

COVID-19 + FLU A/B Combination Assay

NEW from MAKO

COVflu-19™

A single test to detect and differentiate SARS-CoV-2, Influenza A and Influenza B

FAQ

COVflu-19 from MAKO Medical

Q: What is “COVflu-19”?

COVflu-19 is MAKO Medical’s SARS-CoV-2 + Influenza A + Influenza B diagnostics test. COVflu-19 detects and differentiates RNA from multiple respiratory viruses simultaneously.

Q: Which instruments is COVflu-19 run on?

COVflu-19 is run on the highly accurate, real time PCR instruments, specifically Life Technologies QuantStudio 12k Flex Systems.

Q: Which assay kit is MAKO Medical using for COVflu-19?

MAKO Medical is using the Applied Biosystems TaqPath COVID-19, Flu A, Flu B Combo Kit assay.

Q: Is COVflu-19 a single test?

COVflu-19 is a single test from a single swab that detects SARS-CoV-2 (N & S gene), Influenza A, and Influenza B.

FAQ

COVflu-19 from MAKO Medical (continued)

Q: How is COVflu-19 collected?

COVflu-19 is collected via nasopharyngeal and nasal swabs.

Q: Why is COVflu-19 important?

COVflu-19 detects and differentiates between disease states (SARS-CoV-2, Influenza A, and Influenza B) that have similar clinical symptoms to provide the information needed to help monitor the spread of COVID-19 and flu.

Q: What is the sensitivity and specificity of COVflu-19?

COVflu-19 gets a targeted specificity to 100% of currently available complete genomes for SARS-CoV-2 and robust performance for detecting Flu A and B strains, providing increased confidence in results.

Q: What is the limit of detection?

MAKO Medical's limit of detection is 1 copy/microliter.

Q: What is the turnaround time for COVflu-19?

Mako Medical will provide SARS-CoV-2, Influenza A, and Influenza B results within 24 to 48 hours upon receipt in the MAKO Medical laboratory.

Q: What is the MAKO Order Code for COVflu-19?

The order code is 720015, and the order name is "SARS-CoV-2 + Influenza A and B (COVFLU19)".

COVflu-19: ONE test provides **THREE** results
